MEMORANDUM FOR THE RECORD

SUBJECT: NIS Production Costs

Per invitation through Mr. [REDACTED] I today attended
a conference in the office of Mr. R. K. Oakley, IRC/ICD/State.
In addition to [REDACTED], the following were in attendance:

25X1A9A

25X1A9A

Mr. Carroll M. Terry, Director, IRC/OD
Mr. R. Kenneth Oakley, IRC/ICD
Mr. Earl Churchill, Budget Officer, INR/EX
Miss Edith Thomas, Project Control Officer, INR/EX
Mr. Louis Gonzalez, Chief, Intelligence Services Branch, IRC/ICD
Mr. D. J. Clinton, NIS Coordinator.

The purpose was to determine how NIS would be handled in the report to the Special President's Committee investigating the cost of producing and printing intelligence. In view of the overriding significance of DD/I and Agency ground rules for this exercise, including his consistent attendance at various meetings chaired by Kirkpatrick, [REDACTED] largely carried the ball. It was agreed that there would be full informal interchange of ideas in the light of developments when all USIB components are scheduled to submit their individual final papers by 15 March.
